SUMMARY

Dedicated master's student in Artificial Intelligence (AI) with hands-on experience in machine learning, computer vision, natural language processing, and deep learning. Experienced in applying academic concepts through coursework and projects. Aspiring to contribute as an AI Engineer by leveraging advanced AI techniques to address real-world problems.

KEY SKILLS

✓ Python	✓ TensorFlow	✓ Pandas	✓ Problem-solving
✓ Java	✓ PyTorch	✓ NumPy	✓ Critical Thinking
✓ C#	✓ Scikit-learn	✓ Matplotlib	✓ Continuous Learning

EDUCATION

Master of Science in Artificial Intelligence

Kennesaw State University

Expected Graduation: May 2026

Marietta, GA

Relevant Coursework:

- Machine Learning: Supervised and unsupervised learning algorithms, ensemble learning, and model evaluation.
- Deep Learning: Linear classifiers, activation functions, neural networks, CNNs, RNNs, and transformers.
- Reinforcement Learning: Exploration and exploitation strategies, deep reinforcement learning methods.
- Natural Language Processing: Text preprocessing, sentiment analysis, summarization, and machine translation.
- Computer Vision: Image processing, feature extraction, and object detection, image segmentation, CNNs.
- AI Ethics: Explored ethical considerations and societal impacts of AI technologies.

Bachelor of Science in Computer Science

Kennesaw State University

Graduated: May 2024

Marietta, GA

Relevant Coursework:

- Programming Fundamentals: Object-oriented programming, algorithms using Python, Java, and C#; data types.
- Data Structures and Algorithms: Implementation of arrays, linked lists, graphs; sorting and searching algorithms.
- Databases: Relational database implementation, SQL, SQL Server, MySQL, MongoDB, PostgreSQL, and NoSQL.
- Software Engineering: Software development lifecycle, Agile development practices, and version control with Git.

Dean's List: Spring 2024

President's List: Summer 2023

Associate of Applied Science in Computer Information Systems Computer Programming

Chattahoochee Technical College

Graduated: July 2021

Marietta, GA

CERTIFICATIONS

IBM Machine Learning Professional Certificate

IBM

Expected Completion: December 2025

Coursera

Java Programmer

Chattahoochee Technical College

Completed: May 2021

Marietta, GA

C# Programmer

Chattahoochee Technical College

Completed: December 2020

Marietta, GA

PROJECTS

Breast Cancer Detection using K-Nearest Neighbor (kNN) Classifier in Python

Fall 2024

- Applied kNN classifier for breast cancer diagnosis, normalized and split dataset, tested the model with various k.
- Evaluated model performance using confusion matrix, accuracy, precision, recall, and F1 score.

Deep Learning (AlexNet, ResNet) for Diabetic Retinopathy Classification using Transfer Learning

Fall 2024

- Implemented transfer learning with pre-trained CNNs for diabetic retinopathy classification in fundus images.
- Optimized CNN performance by adjusting learning rates, batch sizes, and training epochs.

Naive Bayesian Classifier for Breast Cancer Classification

Fall 2024

- Implemented Naive Bayesian Classifier for breast cancer diagnosis using Wisconsin Breast Cancer dataset.
- Evaluated model performance using accuracy metrics, confusion matrices, cross-validation, and ROC curves.
